

PROFESSIONAL SUMMARY

Java Full Stack Developer skilled in Java, Spring Boot, REST API's and React.js, actively learning and building full- stack web application projects.

EDUCATION

St. Joseph's College of Engineering

Bachelor of Engineering – ECE; CGPA: 8.72

Chennai, India

October 2020 - May 2024

St. Joseph of Cluny M.H.S.S

HSC – PCMB; Percentage: 77.5%

Tindivanam, India

June 2018 – March 2020

SKILLS SUMMARY

- Languages: Java, JavaScript, SQL
- Frameworks: Spring MVC, Spring Boot, React JS, Hibernate, Spring Data JPA, JUnit
- Tools: MySQL, Postman, Swagger, Docker, IntelliJ IDEA, VSCode, Maven, Git
- Soft Skills: Excellent communication, Teamwork, Problem Solving, Adaptability

EXPERIENCE

PROGRAMMER ANALYST TRAINEE | COGNIZANT TECHNOLOGY SOLUTIONS

NOVEMBER 2024 - PRESENT

- Successfully completed Cognizant's intensive Full Stack Developer training program, covering **Java**, **Spring Boot**, **Restful API's** and **React JS** and independently developed a full-stack application
- Deployed in a client project (Telefonica VMo2 o2.co.uk) and gaining real time project exposure in AWS services (EC2, S3) and Docker containerization for deployment simulations.
- Used **Postman** to interact with backend REST API's, retrieving and analyzing response data to support service validation and used the same for documenting response data.

PROJECTS

SmartSpend – Expense Tracker Web App | [Frontend](#) | [Backend](#)

Dec 2024 – Feb 2025

- Designed and implemented RESTful APIs using Spring Boot for expense management with CRUD operations, filtering by category and date, and request validation.
- Applied layered architecture (Controller–Service–Repository), integrated JPA for persistence, and modeled relational database schema using MySQL.
- Performed unit testing and API validation with Postman, handled exceptions using custom error responses, and maintained codebase with Git and GitHub version control.

ATM Backend System | [Link](#)

Mar 2025

- Developed RESTful APIs for ATM cash withdrawal, implementing custom logic to return optimal denominations (₹100, ₹200, ₹500) and update remaining cash.
- Structured the backend using layered architecture (Controller–Service–Repository) to manage note balances and transactions and tested all the endpoints

CERTIFICATIONS

- Java Full stack Web Developer, GUVI GEEKS IIT- Madras | [Certificate](#) Aug 2024 – Oct 2024
- Graduated from Cognizant Academy as Java FSE | [Certificate](#) Nov 2024 – Feb 2025
- Business English Certificate, Cambridge English | [Certificate](#) June 2022
